### Projects opened

Two major projects of Mid-Western Regional Council's Community Infrastructure Program were officially opened at Kandos recently. It was a low key affair but a heart-felt one with a number of councillors and staff accompanying MWRC General Manager, Warwick Bennett to the two sites. A small number of community members were also present, first at the Kandos Sportsground and then at the skate park to hear Mayor Percy Thompson declare the two projects open. Mr Thompson said council had decided to spread the money they received in the Federal Government's stimulus package around - \$572,000 altogether. Approximately \$170,000 was spent on the sports field fencing and the skate park. "I'd like to thank all the people who were involved in the planning and construction of these two projects. We've got a very sport's minded council and we've made a commitment to improve our sports facilities across our region," he added.

The new fence around the football field has already paid dividends, enabling the first rugby league football grand final to be played at Kandos in more than 30 years and attracting a huge crowd to the ground. The new skate park has also been given a good tryout by young people and so far - so good, initial thumbs up and plenty of new moves to learn. Local youths

have seen the skate park blossom from just an idea when they held their skate off in Kandos's main street in December 2008 to this new facility, thanks to the Federal Government's stimulus package and implementation of the funds by Mid-Western Regional Council. Mr Bennett said he wanted to thank the Federal Government for the money the Council had received.

"Thanks Kevin, and I mean that. I think we've been able to achieve something really worthwhile with this stimulus money," he said.

**NEW FENCE:** Councillors Percy Thompson and Peter Shelley, Kandos Waratahs publicity officer, John Fitzgerald and councillor Esme Martens.
